Plant-Based Alternatives to Fish Filet Products

Alternatives to Whitefish Filet

Alternatives to Salmon Filet

Alternatives to Fish Sticks

Our **fiildFish P** functional stabilizing systems offer a variety of solutions for alternatives to fish file products. Different fish types and formats, like battered filets, fish sticks, smoked variants, or tray bakes are possible. This product range features a modular approach, in which specific end products can be developed by combining each binder with a suitable texturate, coloring and flavoring.

Functional Systems

System	Application	Properties
fiildFish P 141504 <i>Art. No. 10108972</i>	Plant-based whitefish filet based on pea and fava bean protein (Breaded, plain, tray bakes, fish sticks, fish nuggets)	Functional system for whitefish filet <ul style="list-style-type: none"> • Authentic laminar fish structure • Freeze-thaw stable • Two stage process
